

Investment Objective

The objective of the YFS Vermeer Partners Growth Portfolio Fund is to provide capital growth for investors with a 5-year time horizon (net of fees).

Investment Policy

The fund is an actively managed, diversified portfolio of predominately global equities, but also some fixed interest and alternative investments (such as property and infrastructure) through both direct securities and collective funds. The portfolio will tend to hold between 60 and 80 investments at any one time.

Monthly Commentary

The Investment Association (IA) Flexible Investment Sector returned +2.75% over the month

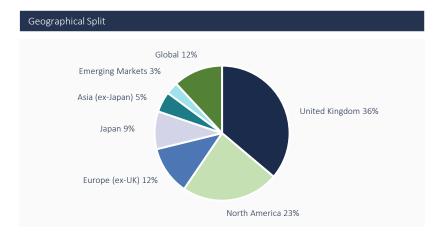

US CPI unexpectedly rose to a 3.2% annual pace in February. Stubbornly high inflation appears to be standing in the way of the Federal Reserve's willingness to cut rates and it was no surprise that the cut in March — that was all but guaranteed a few months ago — did not occur. Although tentative signs that US employment data may be slowing keeps alive hopes of a rate cut in June.

In response to concerns that we have had over recent performance, we decided to consolidate the two holdings in the Matthews Asia and Bin Yuan China funds into the Federated Hermes Asia (ex Japan) Fund. We continue to believe that a modest exposure to Asia and Emerging Markets (including China) will benefit the portfolio but have taken the view that the team at Federated Hermes will produce stronger risk-adjusted returns going forward. The Federated Hermes Asia (ex-Japan) Fund is a £2.5bn UCITS fund investing in Asia (ex-Japan) equities. The team, led by Jonathan Pines, run around £3.5bn in total, Pines has been at Hermes since 2009. The fund employs a rigid contrarian style, investing in companies and regions that are out of favour. Accordingly, the fund has an overweight position in China.
