

Key Investor Information

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

YFS Vermeer Ptnrs Portfolio Fund (the "Fund")

(Sub-Fund of YFS Vermeer Partners Portfolio Funds)

Share Class: 1 Income Shares (the "Class")

ISIN Code: GB00BPK6TS38 (Currency: GBP)

Authorised Corporate Director (ACD): Yealand Fund Services Limited

Objectives and investment policy

Objective

The investment objective of the Fund is to provide capital growth as well as generating an income for investors with a 5 year time horizon (net of fees).

Investment Policy

The investment policy by which the Fund will seek to achieve its objective is to invest in a diversified global portfolio of equities (50% to 75%) and bonds (0% to 25%) either directly or indirectly. The equity allocation may be cut towards the bottom of the range in responding and managing macroeconomic conditions.

The Fund may invest in alternative assets (0% to 25% indirectly) that may include Collective Investment Schemes ("CIS") that invest indirectly in real estate or in commodities. The Fund may also invest in warrants, money market instruments, cash, near cash and deposits. The Fund is actively managed and has, with the exception of the above noted restrictions, no limit to which it can be invested in each sector or asset type, nor is there any particular geographic focus. The Portfolio Manager has full flexibility to adjust the proportion of the property of the Fund depending on their view of market conditions and the assets which it believes are most likely to achieve the Fund's investment objective. Indirect investment in equities and bonds will be achieved by investing in regulated CIS, exchange traded funds, investment trusts or structured products (products which usually offer a fixed-term pre-defined return linked to the performance of a range of assets or indices) or a combination of each.

The Fund may invest in CIS which are managed by the ACD, Portfolio Manager, or their associates. Indirect investments will generally be directed toward funds which invest primarily in equities and debt securities. Derivatives and forward currency transactions will only be used for the purposes of efficient portfolio management, including hedging.

A Glossary of Definitions which provides definitions to some of the technical language used in this document is available from www.yealand.com/policies.

Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Benchmark

The Fund is actively managed and is not managed in reference to a benchmark

Dealing

Shares in the Fund may be bought or sold before 12pm on every business day.

Income

The fund aims to distribute available income every three months.

Risk and reward profile

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund.

The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the Class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

The risk category does not take into account the following material risks:

Charges to Capital Account: Currently, 100% of the expenses incurred in the operation of the Fund are charged to capital. This treatment of charges may increase the amount of income available for distribution, but may also constrain capital growth and / or erode capital.

Counterparty Risk: The Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its obligations to the Fund.

Currency Risk: Even with the use of hedging techniques, changes in currency exchange rates could adversely affect the Fund's performance.

Default Risk: The issuers of certain bonds could become unable to make payments on their bonds.

Liquidity Risk: During difficult market conditions, some securities may become hard to value or sell at a desired price.

Management Risk: Investment management techniques that have worked well in normal market conditions could prove ineffective or detrimental in extreme market conditions.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over the year	
Ongoing Charges	1.37%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 30 June 2025 and this figure may vary.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking.

The ACD receives an annual fee, which is included in the ongoing charges shown here. Ongoing Charges are the same for all investors in the class.

For more information about charges, please see the “Charges” section in the Fund’s Prospectus which is available from the ACD.

Past performance

Total Return %

There is insufficient data to provide a useful indication of past performance to this share class' investors.

YFS Vermeer Ptnrs Portfolio Fund was launched on 16 October 2023, and the Class launched on 10 October 2024.

This chart shows how much the Fund increased or decreased in value as a percentage for 10 full consecutive years or for each year since the launch of the Fund if it has not been in existence for 10 years.

Performance has been calculated in GBP and takes account of ongoing charges.

Past performance is not a guide to future performance; the value of your investment and any income from it may go down as well as up.
