

YFS Vermeer Partners Portfolio Fund

November 2023

Investment Objective

The objective of the YFS Vermeer Partners Portfolio Fund is to provide capital growth as well as generating an income for investors with a 5-year time horizon (net of fees).

Investment Policy

The fund is an actively managed, diversified portfolio of global equities, fixed interest and alternative investments (such as property and infrastructure) through both direct securities and collective funds. The portfolio will tend to hold between 60 and 80 investments at any one time.

Monthly Commentary

- November 2023

The YFS Vermeer Partners Portfolio Fund launched 16th October with c. £17.1m invested across Vermeer Partners' Balanced Portfolio Strategy.

The Investment Association (IA) Mixed Investment 40%-85% Shares Sector returned -2.55% over the month.

Global equity markets fell over the month as a continued sharp spike upwards in bond yields reduced investors' appetite for risk. The MSCI World Index returned -2.31% while the ICE BofA Global Government Bond Index returned -0.78%, both in sterling terms

However, there were tentative signs towards the end of the month that global economic data is starting to soften and so it was no surprise that both the Federal Reserve and the Bank of England maintained rates unchanged at this month's meetings.

There were no outright sales or new purchases on your fund this month; however, we did put more of the cash held on deposit into the **BlackRock Sterling Liquidity Fund** (a large, well-known, "money-market" fund) to ensure that funds held in reserve are earning a high level of interest, pending future investment.
